## IS RUNNING REALLY BAD FOR YOUR KNEES ?

BY : Jean-Francois Esculier

Analyzed from a clinical and scientific standpoint, this training course addresses several paradoxes of modern musculoskeletal medicine and features the most important tool to use in the treatment of musculoskeletal injuries.

Through concrete examples supported by evidence-based data, participants, as health professionals, are led to reconsider and update certain aspects of their clinical practice.

FEE : 10€

**TUESDAY, NOVEMBER 28<sup>TH</sup>**  
**STARTS AT 8:00PM**
